ABOUT ME

Motivated and creative 3rd Year Software Engineering undergraduate with strong knowledge in full-stack development and database systems. Passionate about Software Engineering with a growing interest in Cybersecurity. Experienced in academic and group-based projects using modern technologies. Seeking a Software Engineering internship to apply technical knowledge, enhance practical skills, and gain industry exposure.

EDUCATION

BSc (Hons) in Software Engineering | *LNBTI Japanese IT University* **Expected 2028**
3rd Year Undergraduate

G.C.E. Advanced Level Examination | *Mahinda College, Galle, Sri Lanka* **2023**
Combined Maths: C | Physics: S | Chemistry: S

G.C.E. Ordinary Level Examination | *Mahinda College, Galle, Sri Lanka* **2019**
Results: 8As, 1B

SKILLS PROFILE

Languages: C++, C#, Java, JavaScript, TypeScript, PHP
Web & Mobile Technologies: React.js, React Native, Node.js, Express.js, HTML, CSS Frameworks
Databases: PostgreSQL (Supabase), MySQL, MongoDB
Cloud & DevOps / Tools: Microsoft Azure VM, WebSocket, Git, GitHub, VS Code, Android Studio
Currently Improving: Python, Linux, DevOps Fundamentals
Spoken Languages: Sinhala (Native) • English (Proficient) • Italian (Basic)

Soft Skills: Self-Motivation • Continuous Learning Mindset • Ability to Quickly Learn New Technologies • Adaptability in Team Environments • Creative Problem-Solving and Innovative Thinking

KEY PROJECTS

SolarConnect | Group Project **Feb 2026**
- Collaborated in a team to design a solar energy management platform.
- Contributed to system analysis, requirement gathering, and architectural design.
- Participated in documentation, UML diagrams, and system modelling.
- Improved teamwork, communication, and structured software development practices.
- **Repository:** github.com/SE03-SAD-Group-Project/404SquadSolarConnect

Smart Employee Management System | Full-Stack Web & Mobile Application
Client: Weliwitiya Divithura Pradeshiya Sabha | **Oct 2026**

- Successfully engineered and deployed an end-to-end employee management platform to digitize administrative workflows, leave processing, and internal communications for a government institution.
- Built a cross-platform mobile app using **React Native** for staff leave applications, task tracking, and multi-language support (English, Sinhala, Tamil).
- Developed an administrative web portal using **React.js, Node.js, and Express.js** featuring Role-Based Access Control (RBAC), multi-level approval workflows, digital signatures, and audit logs.
- Architected real-time updates and notification systems leveraging **WebSockets** and managed cloud data storage with **Supabase (PostgreSQL)**.
- Configured and deployed the complete backend and web application on an **Azure Virtual Machine**.
- **Repository: github.com/SE-03-Industry-Based-Group-Project-2026/StaffManagementSystem**

Hostel Management System | PHP, MySQL | Full-Stack Web Application **Aug 2025**

- Developed a web-based hostel management system to manage student registrations, room allocations, and payments.
- Designed and implemented backend logic with database integration.
- Applied CRUD operations and authentication mechanisms.
- Strengthened understanding of full-stack development and relational databases.
- **Repository :** github.com/Dew7975/hostel-management-system

CERTIFICATIONS & ACHIEVEMENTS

Business Ethics — LinkedIn Learning (2026)

Critical Thinking and Problem Solving— LinkedIn Learning (2026)

Poster Presentation Certificates — 2nd JASPER Research Symposium 2026 (LNBTI)

- *[Author]* "Design And Simulation Of A Photonic Antiparticulate Bulb Capable Of Emitting Visible Light Cancellation Waves"
- *[Co-Author]* "SolarConnect: A Semi-Automated Digital Platform For Optimizing Solar Installation Workflows In Sri Lanka"

LEADERSHIP & EXTRACURRICULARS

- First place in Discus Throw and Shot Put at Galle Division athletic competitions. **2018**
